**REBALANCE OILY SUMMER SKIN
WITH MYBODY**

THINK: Clinical-grade solutions to summer skin concerns.

WHAT IT IS: Summer shine control and breakout prevention. As soaring temperatures send skin into a cycle of oil overproduction, many acne sufferers seek the sun in an attempt to **minimize blemishes**. As any dermatologist will attest, sun exposure is the last remedy an expert would recommend: the long-term damage caused by UV exposure far outweighs any immediate alleviation of acne symptoms. A clinical collection developed by some of the foremost authorities in skincare, **mybody** offers a **gentle yet effective acne regimen** that includes the sun protection even acne sufferers need. **mybody helps you end the cycle of breakouts** with **Take Control Calming Gel Cleanser, Break Free Oil-Free Hydrator** and **Protect and Serve Tinted Sun Shield**, a potent yet gentle regimen designed to **deep clean, rebalance the complexion** and **shield skin from the sun**. Offering **effective acne treatment without over-drying** and **replenishing moisture without leaving skin greasy**, the formulas provide the **perfect summer skincare regimen**.

Start by cleansing skin with **mybody Take Control Calming Gel Cleanser**, a cool, refreshing, concentrated formula with **2% salicylic acid**. **Take Control purifies skin, soothes irritation** and **treats acne** while **fighting future breakouts**, maintaining a clear, balanced complexion. Next, moisturize with **mybody Break Free Oil-Free Hydrator**, a **unique oil-absorbing moisturizer that rehydrates and rebalances** dry, stressed skin and aids in recovery from excessive use of acne treatments. **Break Free** hydrates and calms irritated skin with a **unique oil-free complex**, creating a **shine-free, matte finish**.

Finally, shield skin from the summer sun with **Protect and Serve Tinted Sun Shield**, a **high-performance physical formula** that protects like a **sunblock** and acts like a **makeup primer**. Formulated for all skin types, including acne-prone skin, its **unique silicone-base** and **feather-light formula** smoothes over **Break Free Oil-Free Hydrator** for **ultimate protective comfort**. **Protect and Serve** protects with broad spectrum **UVA/UVB SPF 30** and offers a healthy daily dose of **essential vitamins and antioxidants** as well as a **radiant hint of color**.

What they cost: mybody Take Control Calming Gel Cleanser, \$30

mybody Break Free Oil-Free Hydrator, \$60

Where to find them: www.lovemybody.com

About mybody: Are you listening? **Your skin is talking**.
